Total Vote Cast in Cochise County 3926

For Constitutional Amendment 2723
Against Constitutional Amendment 326

Annual Cost of the University of Arizona

The income of the University of Arizona for the year 1912 will be \$167,670. Of this amount the national government contributes \$90,000, which may surprise citizens of the state, who have been accustomed to believe that the state provided for all or most of the expenses of the University. The new dormitory for men, with its equipment is to cost \$25,000; if this amount were subtracted from the total expenditure, for it is an unusual expense, the appropriation by congress would approximate 60 per cent of the total budget. It must be manifest, therefore, that the University would be a very meagre institution if it were not for the federal funds.

"Old Nick" Busy.
A reverend Scotchman was going to hold forth to an open-air meeting. He sat down on a bank in which there was an ant's nest; the insects soon found their way into his "Oh, no, we never mention 'em'." and he said: "Brethren, though I hope I have the word of God in my mouth, I think the devil has got into my breeches."—Exchange.

SEEDS

From Friday's Daily

J. Jaus of Bowie is the latest notary public to be commissioned in Cochise county by Governor Sloan, having filed his bond as such official with the clerk of the board of supervisors.

John S. Williams returned to Tombstone yesterday afternoon after a brief visit to Douglas. Mr. Williams has announced that he would remain in Tombstone after his retirement from office next week and look after the law business of Williams and Flannigan at this end.

Clerk H. E. Berner of the board of supervisors is busily engaged in affixing his signature to two bond issues which were recently authorized by the board of supervisors for Hereford and Seward school districts, for the purpose of erecting and furnishing the school houses for the respective districts. The entire two issues were bought in by E. B. Edwards of Oklahoma City, Okla., he having bid and offered the highest premium. The Seward district calls for bonds in the sum of \$1600, while Hereford issued bonds in the sum of \$800.

Two convicted Bisbee prisoners were brought to Tombstone yesterday afternoon by Sheriff Jack White, to be placed in the county jail to await the next session of the grand jury, to which body they were held, on the charge of assault with a deadly weapon.

During the month of January, according to the records of the probate court, there were issued by Clerk James, a total of thirty-one bills of sale, or at an average of one each day. The following marriage licenses have been issued during the past few days upon the recommendation of Dan Cupid:

Mannet Sanchez to wed Luz B. Landra, both of Douglas.
Fernando C. Mendosa to wed Jesus Hughes, both of Douglas.
Burt G. Stanford to wed Myrtle West, both of Douglas.
Fred H. Schuman to wed Florence L. Porter, both of Wilcox.

Mrs. Artell, accompanied by her son Edgar, left yesterday for Bisbee for a few days visit to friends.

Tommy Blair returned to Bisbee last evening.

R. H. Drane, who had lived in Phoenix more than twenty years, was found dead from heart failure. He was 72 years of age.

The Phoenix typographical union have allied themselves in membership with the recently organized Federation of Labor in Arizona.

After waiting six weeks to catch Ah Chung "with the goods on him" the Phoenix police visited his place last week and captured an alleged gambler on it.

In Tucson a farewell banquet was tendered to Judge Campbell which was generally attended by the Pima county bar.

Form Thursday's Daily

Get ready for the new state on the 12th.

J. C. Waters, a prominent mining man of Denver is in the city. Mr. Waters is interested in some mining property in the Gleason district and is here on a visit of inspection.

Probate Judge Frank W. Goodbody was in Globe for a few days on legal business, and the Silver Belt has the following item concerning the genial judge:

"Frank Goodbody, for eight years probate judge of Cochise county, leaves for Tombstone this morning after a brief visit to Globe. Judge Goodbody says the only way Cochise could get rid of him was by abolishing the office of probate judge by adding the duties of that county department to the work of the superior judge, as provided for under the state constitution. Mr. Goodbody will resume the practice of law in Cochise county, establishing his office at Tombstone, the county seat."

Undersheriff-elect Guy Welch is taking notes about the sheriff's office and will be ready to slip into official harness upon the sound of the state bell.

St. Bryant was in the city yesterday from Gleason and states that the camp is much livelier at the present time than it has been for a number of years. He states that there are at the present time about 150 men employed in the mines and that the Arizona Eastern Railroad Co. last month handled more freight and ore than at any month since the road was built.

The officers about the court are busy these days preparing their final records and offices ready to be turned over to the incoming officials, presumably next Monday.

An automobile party comprising Dr. H. Ferguson and son, Dr. E. Ferguson, Roger T. Pelton and L. O. Fairfield, all of Bisbee, were Tombstone visitors this morning and returned to the big copper camp this afternoon.

C. C. Reynard, resident superintendent of the county hospital was a Tombstone visitor today from Douglas.

Dr. Bledsoe of Bisbee was in the city today, being a member of the lunacy commission who were called upon today to pass upon the sanity of Paul Bechman of Douglas, who was committed to the asylum.

Election Supplies Are Shipped

The supplies to be used in the special bridge election to be held on next Saturday were shipped by express today by Clerk Berner, of the board of supervisors, to the various precincts. The election is called for the purpose of ascertaining the will of the taxpayers of the county as to whether or not the board of supervisors shall be authorized to construct three bridges across the San Pedro River at a cost of \$6,000 each.

So far there has not been much interest in the question and it is not expected that a very large vote will be polled. There is no question but that the bridges are needed at certain times of the year when the river is up and no doubt would result in the increase of travel from the western end of the county to the eastern part of the county. The bridge at Charleston would make the matter of getting to and from Fort Huachuca much more convenient, and probably divert some of trade which now goes to Tucson to the cities of Cochise county.

May Pay Can- vassing Board

Some time ago Senator elect Mark Smith telegraphed Senator Morrill, who introduced the bill for the remainder of the fund appropriated for the statehood election expenses that it might be used in buying furniture for the new state offices, asking him to attach an amendment to the effect that before the fund is turned over, the expenses of the late canvassing board shall be paid from it. A telegram from Senator Morrill states that he has complied with the request. A telegram has now been sent to Delegate Caine on, asking him to attach the same amendment to the companion bill in the house.

Another Measure for Legislature

A proposal to fix the salaries of justices of the peace in the new state at \$100 to \$125 per month and to eliminate constables altogether after their present terms of office expire is to be introduced in first state legislature will probably be fathered by State Senator-elect John T. Hughes of Pima county.

In seeking the abolition of the constable's office, it is proposed that the work of arresting criminals and bringing them before the justice court shall devolve on the regularly constituted deputy sheriffs and policemen. The justices will have jurisdiction as at present over cases which do not properly lie in police courts.

Unfortunate Man Sent to Asylum

Probate Judge Goodbody today committed Paul Bechman of Douglas to the asylum after the regular examination by the lunacy commission. The unfortunate man has a peculiar mania, that is, a pronounced aversion to women, and appears rational and all other subjects. It developed at the examination that the moment a woman or girl appears in sight he is in subject fear and trembling, and makes an effort to get in hiding. He has been known to go without meals rather than face or be in the presence of women.

On several occasions he exhibited a violent disposition and it was deemed best to place him under restraint, and doubtless medical treatment will overcome his arid mania and restore him to normal condition. The prisoner answered all other questions readily during his examination. The belief is that care and attention at the asylum will effect a cure.

Hanson Confident of His Appointment

Charles Hanson returned this morning from Bisbee, where he spent yesterday in the interests of some mining business for some of his clients. He stated that all his old mining friends in Bisbee accorded him the warmest reception and assured him of their support for the appointment as mine inspector by Governor Hunt, which office he desires to have.

Mr. Hanson is an old time miner in this section and widely known and has the endorsement of nearly all mining men in Globe, Morenci and Clifton districts, as well as those of Cochise county. He stated that he believed he had more than an "even break" with the other aspirants and believes that the governor will favor him with the appointment.—International.

E.P. & S.W. to Install Telephones

The El Paso & Southwestern in Tucson will install long distance telephone equipment for dispatching trains and receiving reports from all stations on the division, supereradicating telegraphic dispatching, which has heretofore been considered an indispensable adjunct of railroading.

In preparation for charging from telegraphic to telephone dispatching, V. E. Backus, superintendent of telegraph for the El Paso & Southwestern is making a tour of the system. He was in Tombstone yesterday and will probably be in Tucson today.

The proposed change will involve an expenditure of about \$50,000, and cannot be completed on the rest of the line much before the railroad extension into Tucson is finished.

Court Cases Filed

DISTRICT COURT
Suit No. 6567: M. Davis vs. Wm. L. Rose; action to compel enforcement of contract for sale.
Suit No. 6568: J. H. E. Bacon, executor vs. Jas. Reilly vs. J. J. Howard; judgment in suit No. 6231; Joe J. E. Dr. J. H. Huntman vs. Cr. Judgment for \$400.00, interest and attorney's fee and costs.

Officers Were In a Quandry

The officials of the sheriff's office were in a quandry during the past few days trying to find out some steps to take to secure the release of an eleven-year-old youngster, who was brought up from Benson yesterday on a commitment ordering him held to the juvenile branch of the district court. Judge Doan had let the district and gone to Nogales and did not expect to return to the county until the 18th or 19th and in the event the statehood proclamation is signed on the 12th he would have no jurisdiction at that time. The law prevents youth of that age from being confined in the county jail with prisoners and as the women's cell was occupied by two women there was no place to keep the youth so that provision had to be made for keeping him on the outside. The officers did not want to keep him until some court was convened to act on the matter and Judge Doan was finally called upon the phone and he suggested that the youngster be returned to his home until such time as the case could be reached either in the district court by himself or in the superior court by Judge Sutter. Acting on this plan the youngster was sent back to Benson this morning.

The youth is accused of having entered the public school building at Benson and destroyed some of the books, defaced the clock and poured ink on the piano keys.

Better Pay Their Fees

A Phoenix dispatch says: Attorney General elect Bullard today stated that if foreign insurance companies in Arizona pay their annual fees before admission day he will bring suit to oust them. If they pay now, half the amount goes to the secretary of the territory, but if payment is made after admission, all goes to the school fund. It is claimed they have been solicited to pay now.

Former Tombstoners Form Partnership

W. E. Mauldin, the jeweler, has taken a partner. He hasn't married or anything like that, but just taken a partner in the jewelry business on Sullivan street. Ivan Johnson is the name of the gentleman and the firm now reads Mauldin & Johnson.—Miami news.

George Kirkland Gets Commission

George Kirkland of Phoenix has received a commission dated February 3 as special deputy collector of internal revenue for the collection district of the State of Arizona.

Has His Sight Miraculously Restored

Solomon Pope, who lives at 1117 South Third avenue is rejoicing at the restoration of his sight. For three years he had been losing the normal power of his eyes, until he could no longer distinguish the moon when at its full. The other day a neighbor came and saw his sight restored.—Phoenix Republic.

Two Men to Work On Publication

Importuned by friends of several prominent men in Arizona, the author of "Who's Who in Arizona" has decided to make the book state wide and not only include the state official family, but others who have made themselves prominent through their achievement, even though they be outside the official life of the state. This made the task too great for one man to handle and J. J. Connors, the author of the Blue Book requested Don Barron, a well known publisher, who was a member of the canvassing board, which handled the returns of the first election, to become associated with him in the publication.

TERRITORIAL ITEMS OF INTEREST CONDENSED.

The two bandits who were captured in Tucson after they had held up and robbed the office of the Pinto mine in Mexico have been held to the federal grand jury on a smuggling charge.

Rose M. Ling is reported to have had a narrow escape recently while driving a motor car along a fine piece of road near Wickenburg. The car was partially wrecked.

Yuma has had a sensation when a street preacher who claims to be one of the "Spirits of Christ" attacked another street preacher, known as the "Coward Preacher," whom he claimed was enticing or seeking to entice his nineteen year old daughter away from him. The matter has been in the courts before, the "Coward" claiming the "Spirit" was restraining the girl. In this case the "Spirit" proved stronger than the flesh and he "Coward" is reported to have been much the worse for wear when the encounter was ended.

The district court in Pima county, having been established for 78 years, held its last session and on Tuesday adjourned sine die.

As the first step toward an important colonization scheme, John E. Sizer has purchased the holdings of the Catalina Power and Water company in Pinal county for \$500,000.

Norman E. Mack has telegraphed to S. J. Michaelson, strongly urging that Arizona make immediate reservation for the accommodation of the delegates to the democratic national convention at Baltimore.

Winslow is advertising for bids for the construction of a high school building which is to cost \$18,000.

J. B. Ormond, formerly of Douglas, and for some time with the Copper Queen mine at Bisbee, has signified his intention of accepting the position of assessor and auditor under J. C. Callaghan of Bisbee.

Charles B. Hart, who has been the head electrician at the Copper Queen smelter, resigned his position a few days ago on account of poor health, his physician having advised that he seek the open air as a means of recuperation. Mr. Hart has purchased a automobile and will operate it for the public service.

S. S. Pres on went to Flagstaff Tuesday from the site of the Little Colorado river bridge. Work has been progressing as rapidly as possible under adverse circumstances and it is believed now that the new bridge will be completed by the middle of March.

Botlegging along the line of the new railroad toward the Verde valley has been going on so flagrantly and industriously for several weeks to assume a serious nature.

With the approach of springtime, the building business is rapidly picking up in Winslow. With the new opera house completed, the new Dye building to be completed in the next few weeks, the Elks breaking ground to erect their new home, which will cost in the neighborhood of \$30,000.

C. J. Spellmire of Winslow, while driving a team last Saturday, in getting from the wagon, got one of his feet caught in the lines which tightened the horses. Mr. Spellmire, after finding that nothing could be done to stop the horses, jumped to the ground severely bruising his face and arm.

Why cough? Stop it!

Stop coughing! Coughing rasps and tears. Stop it! Coughing prepares the throat and lungs for more trouble. Stop it! There is nothing so bad for a cough as coughing. Stop it! Ayer's Cherry Pectoral is a medicine for cough and colds, a regular doctor's medicine. Sold for seven years. Use it! Ask your doctor if this is not good advice.

Unless there is daily action of the lungs, poisonous products are absorbed causing headache, biliousness, nausea, dyspepsia. We wish you would ask your doctor about correcting your constitution by taking laxative doses of Ayer's Pectoral. Made by the J. C. AYER CO., Lowell, Mass.
